

GPI's research agenda

The longtermism paradigm

- Articulation and evaluation of longtermism
- Sign of the value of the continued existence of humanity
- Mitigating catastrophic risk
- Other ways of leveraging the size of the future
- Intergenerational governance
- Economic indices for longtermists
- Moral uncertainty for longtermists
- Longtermist status of interventions that score highly on short-term metrics

General issues in global prioritisation

- Decision-theoretic issues
- Epistemological issues
- Discounting
- Diversification and hedging
- Distributions of cost-effectiveness
- Modelling altruism
- Altruistic coordination
- Individual vs institutional actors
